Primavera del Prosecco SUPERIORE

*Spring is coming in the
UNESCO World Heritage Hills!*

Landscape, food & wine, history and culture of a land: these are the key words that merge into a single itinerary, the Primavera del Prosecco Superiore.

An event that, for almost three decades, has been proposed not as a simple food and wine event but as a journey into the beauty to discover the places where the skilful art of Conegliano Valdobbiadene Prosecco Superiore D.O.C.G. wine-making was born.

An event where the "savoir-faire" is combined with the enhancement of an environment that is unique in the world, so much so that it has been nominated a UNESCO World Heritage Site.

Primavera del Prosecco Superiore is ready to present itself to the public with the traditional 17 Wine Exhibitions organised in the area from Valdobbiadene to Conegliano, from Vidor to Fregona, which will create a calendar full of unmissable opportunities to get to know the land and its historical, cultural and food and wine richness.

It will be an honour for our volunteers and partners to welcome tourists and residents and guide them through naturalistic excursions, walks through the vineyards, refined wine tastings and traditional dishes to get to know this evocative and breathtaking landscape!
